COSC 341 – Tutorial 8/9

- 1. Are the following languages automatic languages? If so, construct an NFA for that language. If not, prove that the language is not automatic.
 - (a) $L = \{w | w \text{ is a palindrome over } \{a, b\}\}$
 - (b) $L = \{a^n b^m | n, m \in \mathbb{N}\}$
 - (c) $L = \{a^n b^m | n < m\}$
 - (d) $L = \{ww|w \in \{a,b\}^*\}$

Homework

- 1. Are the following languages automatic languages? If so, construct an NFA for that language. If not, prove that the language is not automatic.
 - (a) $L = \{w | w \text{ has twice as many } a \text{'s as } b \text{'s} \}$
 - (b) $L = \{w | w \in \{a, b\}^*$, the total number of a's and b's is odd
